

SMILE-VISION

Innovation, Consistency, Partnership & Clear Communication

Lunch and Learn with Smile-Vision

Take your lunch break with Smile-Vision and learn how you can build cosmetics into your practice by using online cosmetic simulations and the Template Technique.

The 45-minute team-oriented interactive presentation will get the entire team onboard.

Tuition is complimentary.

Get Patients to Say "YES" to Anterior Dentistry with Cosmetic Simulations

Every general dental practice has many patients who, if approached properly, would want cosmetic procedures. They are the "**hidden treasure**" already within your practice.

The challenge is finding out which patients are potential candidates for smile-enhancement procedures and then presenting the benefits to them in a powerful yet non-confrontational way so they can *sell themselves* on the new smile.

Lawrence Brooks DDS
CEO, Smile-Vision

Join Dr. Lawrence Brooks, CEO of Smile-Vision, and learn how you can make cosmetics the most important part of your practice!
